

# Towards instant frictionless transactions: Smarter Securities

Digital events – exclusively for SWIFT customers

## Focus on Europe

Tuesday, 22 June 2021

14:00 to 17:00 CET

13:00 to 16:00 GMT

The capital markets and the institutions that serve them are fast evolving. To meet the myriad challenges confronting the post-trade industry firms must continue doubling down on digital transformation whilst also collaborating more – and more effectively – than ever before. Only by taking a shared approach to solving industry-wide challenges can we overcome longstanding pain points and deliver smarter securities solutions to reduce costs and exceed customer expectations.

Bringing together industry leaders, and SWIFT subject matter experts, we will discuss the key trends and latest developments impacting you and your community: from the future of post-trade in an evolving digital landscape; the impact of new regulations and emerging asset classes; and our ambitious new strategy to enable faster, smarter and better securities transactions.
